

Members

The following pages are mainly for Lions members, and may contain acronyms that are not immediately understood - please look in the Glossary.

Though we come from different countries and cultures, we Lions share a core belief: Community is what we make it. We believe the best solutions to society's problems and to humanitarian needs happen when men and women come together in a spirit of voluntary service. And because of the personal commitment and sense of responsibility held by each Lion member, our global network of Lions clubs is indeed making the world a better place.
